The global economy in recent couple of years, saw a steep decline in oil prices, which had significant impact on energy businesses and in turn your Company too was affected, since most of clientele of your Company comes from Oil & Energy sector. This coupled with slowing growth in some of the leading global economies impacted currencies also to some extent, which primarily affected your Company clients, and your Company was also bound to be affected, albeit not in absolute proportion. But, there was positive news in terms of faster-than-anticipated economic growth recovery in emerging economies and specially developed economies, which paved way for global economic recovery. This was reflected in the results of first quarter of your company for Financial Year 2016-17.

India's economy is in the midst of a recovery with lower fiscal and current account deficit, lower inflation and weak commodity prices. Our country's growth seems poised to return to a high-growth path. It is in this context that your Company continues its quest for sustained growth. Domestic production was lower due to natural decline from various clients resulting in lower demand from clients across the globe. Despite all, UDTL achieved a net profits of Rs. 6.52 crore for shareholders and earned foreign exchange of Rs. 33.82 crore for the country during the year.

Your Management is also open to idea of possible foraying into other areas/forming strategic alliance with established players from India and/or abroad.

MANAGEMENT DISCUSSION & ANALYSIS

1. OVERVIEW

The economy witnessed divergent trends and stress on major oil producing countries as a direct result of sharp decline in energy prices, whole of the year leading to lower demand for products dealt by your Company.

Despite unpredictable headwinds, the global economic recovery is gaining momentum. These winds of positive change have masked the growth divergence among major economies and India is seemingly benefitting most out of it. Specifically, the recovery in United States was stronger than expected, while performance in Japan and Euro zone has fallen short of expectations.

India's economy is poised to return to its high-growth path, thanks to lower fiscal and current account deficits, falling inflation, and structural reforms to boost investments. The manufacturing sector is likely to benefit from lower interest rates. However, productivity and capital efficiency improvement are likely to drive near-term growth.

Despite the significant decline in commodity prices, UDTL delivered a reasonable financial performance, led by descent earnings. The benefits from demand revival and strong product margins shall improve the bottom line for your Company and result of which will be seen in times to come.

(a) INDUSTRY STRUCTURE & DEVELOPMENT

The Company is manufacturing and supplying various kind of oil drilling tools, equipment and accessories to clients of repute like Oil & Natural Gas Corporation Ltd. and Oil India Ltd. Your Board is very much confident about the success of the existing as well as new projects. The Company has developed a new product casing pipe with connector which is produced/manufactured by units situated at Kandla SEZ Gandhidham, Gujarat.

(b) MARKET ENVIRONMENT AND OUTLOOK

FY 2015-16 provided various industries with both challenges and opportunities. The steep decline in global energy prices during the year was a reason of slow down by Energy Companies leading to slowdown to some extent in demand for your Company's products as well. The impact of the steep drop was felt across the economy and resulted in significant destocking for the industry in FY 2015-16.

However, stabilization of product prices at lower levels is likely to aid a faster revival of demand growth. The Consumption pattern is correlated to global economic growth. Improving macro-economic activity levels is likely to drive demand for your Company's products end uses that encompass most Oil, Energy, Drilling and allied industries.

(c) OPPORTUNITIES & THREATS

As oil market is totally in a swing mood creating vast opportunity for the industry as a whole, the Company has taken various steps to capture larger share in the market. The management is optimistic as to the future outlook of the Company in the medium to long term prospective.

(d) RISKS & CONCERNS

The Company has taken adequate preventive and precautionary measures to overcome all negative factors responsible for low trend to ensure steady growth. Your Company is tender based company which fully depends upon demand and supply of the products. Further operational risk of UDTL has been very safe due to up keeping of maintenance schedules as recommended. The Board is concerned over the state of affairs and shall take suitable steps, yet the regulatory risk involved cannot be ruled out.
